Dated Nirman Bhawan, New Delhi, the 13th April, '98

OFFICE MEMORANDUM

Subject : Addition of difference in cost of stipulated materials to the estimated cost for calling tenders.

As per provisions contained in para 27.9 to 27.12 of CPWD Manual vol.II, in case there is substantial difference between the rates prescribed in the tenders for materials stipulated for issue by the department, and the rates for such items on which the estimated cost put to tender is based, the estimated cost put to tender should be correspondingly increased by the amount equal to difference in the cost of materials stipulated for issue at the issue-rates and the rates adopted in the estimate. The DG(W) has decided that henceforth the difference in cost of stipulated materials on account of difference in issue rates of these materials and the rates in the relevant Schedule of Rates on which the detailed estimate is based, shall not be added to the estimated cost put to tender. It shall, however, be ensured that the estimate is based on the latest schedule of rates.

(P.K. Mathur)

Superintending Engineer(C&M)
